"Best of the Best!!"

"Kaptain"

**Jerry Jobe generously passed them on to me to
continue his legacy- after sadly, losing his fight
with Pancreatic Cancer in late December, 2009.**

I was so very grateful for such an amazing gift, although little did I know that his dogs would very soon, save my life, and turn my life around. My injuries and illness had finally progressed to the point that I could no longer continue the first love of my life, my horses. Multiple doctors advised me that any further damage could and probably would put me in a wheelchair with paralysis.

My life changed as I once had known it,

The dogs became my "lifeline", my friends, my family, my therapy, my new love....

My dogs have an uncanny ability to sense the feelings of their family - and seem to adjust themselves accordingly at the time. They seem to have a "gift" of knowing moods- and what type of behavior is suitable for the moment, and they have always lifted my heart, no matter what is going on for me that day!!!

Soft Coated Wheatens are known for their non-shedding, beautiful haircoats that change color till 3 years of age! They have a "level headed and calm demeanor", which makes me wonder how they ever came into the Terrier Group! (No offense meant!!) Be aware that many show breeders are breeding that temperament out of them, in exchange for "show ring presence" - which means they are breeding for an "overly zealous" and "hyperactive nature"- in addition, clearly, puppy mill Breeders will have no consideration to the temperament or quality of the Breeding Animals and Pups. We are not a kennel! We raise our pups with the very best of care in our home and yard! All of my dogs are kept in my back yard and treated as family- they have individual kennels for nighttime and run of the yard by day. (1/8 acre plus 60 acres of ranch!). If I have pups - the pups get the yard- and the adults are exercised on a hot walker- and then each dog gets to spend individual time being a "house dog" on a rotating basis- and we are constantly working on improving their obedience skills.

We whelp them in our home, and when they get a bit stronger, they are moved into our climate controlled nursery that is attached to the house with bay windows for 24/7 supervision, attention, and ease of access for us so that we can socialize them constantly with a program designed for service dogs.

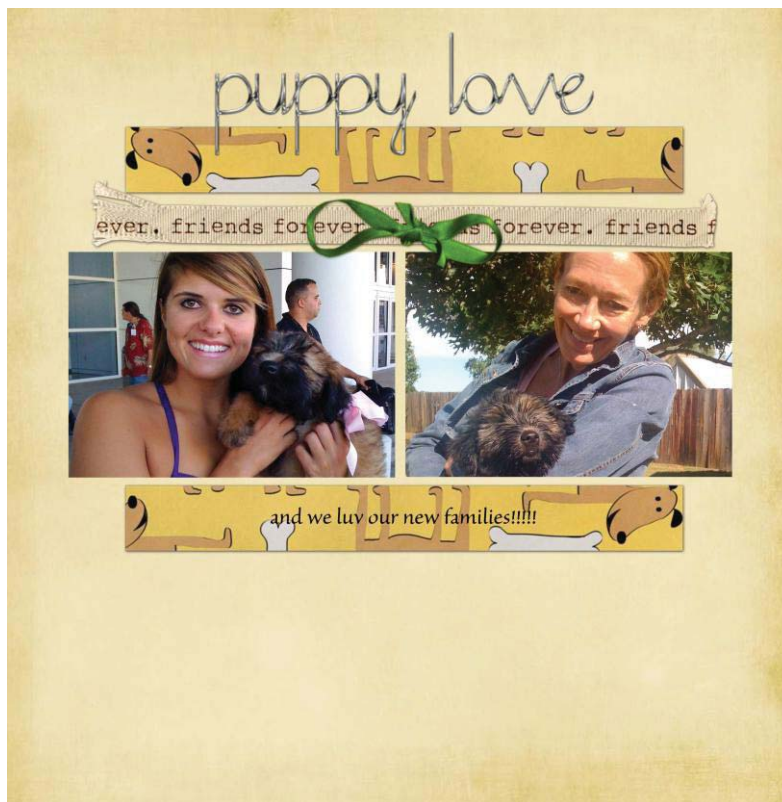

The Nursery has a "Doggie Door" attached so that the mother begins to potty train the pups using the Doggie Door System, which lead to a grassy "play area" for the pups so that they learn to potty specifically on grass. Most kennels raise their pups on concrete or wire- which teaches the pups to go potty in an indiscriminate location (such as carpeting) - rather than the grass. Their tails are docked and dewclaws removed at 3-7 days of age- and are started on their worming and vaccination program at 2 weeks old, with their first Heartworm at 8 weeks.

I have a very intensive daily socialization program. Many of my dogs go on to therapy work - and that is the "basis" for the intensity of my program. I take a lot of pride in my dogs and our efforts with them- I want to make Jerry "proud" and continue his legacy.

I am often asked if I have any "PET QUALITY" pups. They are ALL raised specifically to be PET QUALITY!!!! That is our primary focus! If they are not "Pet Quality", they absolutely DO NOT reflect the goals and dedication of our program. I actually feel that the breeding business has changed such that a Breeder of PET QUALITY PUPS WILL BE RECEIVING A HIGHER PRICE FOR OUR ANIMALS SIMPLY BECAUSE OF THE DIRECTION OF THE SHOW DOG INDUSTRY! Our pups can easily compete in Agility, Rally, or Obedience!!!!) We do not sell the dogs on a "first come first serve" basis- they are "placed" according to their temperament, personality- and overall match to the needs and desires of the adoptive family.

They come with their AKC Limited Registration forms, Litter Certificate, Copies of Parents Papers, Health Certificate (per airline if necessary), Health Guarantee, all Worming and Vaccination records that will be up to date, a little extra food, a toy from "The Family" to remind them of home, basic informal "Doggie Door", and Beginner "Potty Training", and "loads" of information and LOVE! We feed only Iams Dog food (for the pups we use and recommend Iams Small Breed Puppy or you can use Eukanuba Toy Breed if you cannot find the Iams product). When pup goes home, you can add a bit of Goat's Milk from the grocery store to help with the transition. We use "Charlee Bear Training Treats", "Professional's Choice Freeze Dried Liver Training Treats", or, the all time favorite, "Boiled Chicken Livers"! We recommend "Greenies" or some type of actual bone from an animal as a chew toy rather than rawhide.

If you decide you want one of our Babies, we will provide a "Puppy Application Form" telling us all about you, your family, and your day to day life, so that we can insure the right pup goes to the right "furr"ever home! At times we have pups available, and at times you will go on a list for the next litter! You will be hard pressed to find a more loving environment for your new "baby" to be raised!!! If pedigree is what you are after, these pups are the result of over 32 years of dedicated breeding!!! When you receive approval to adopt one of our Babies, a non refundable deposit of \$250.00 will secure your pup, and you will then have the opportunity to purchase a pup we have currently, or get on a waiting list for a future litter!
